*Information. Decisions. Results.*

## National Inflation

Current annual inflation rate is 6.00% and monthly is 0.44%

### Annual vs. Monthly

## Market Review

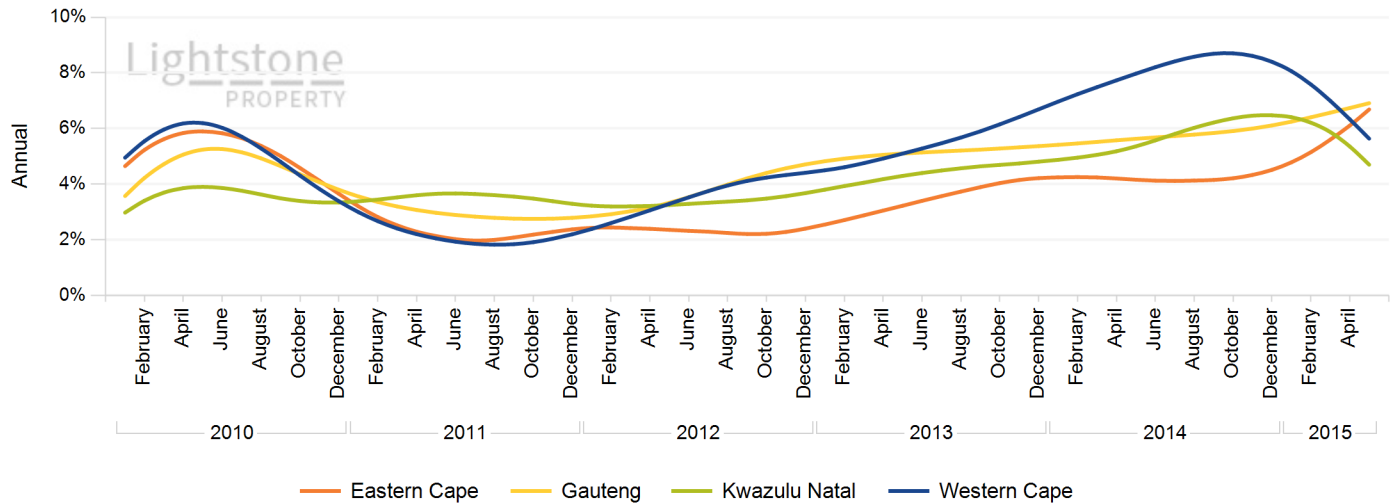

National house price inflation was recorded at 6% as at the end of August 2015. This figure has been slowly declining over the past 6 months primarily due to reduced growth in the luxury and high value segment.

House price inflation in the mid and low value segment is however still increasing and it at 8.4% and 35.9% respectively. A common trend often observed in the property market is that the luxury segment leads the market through peaks and troughs before the other segments catch up and we therefore expect the mid and low value segments to also peak over the next 12 months.

## Provincial Inflation

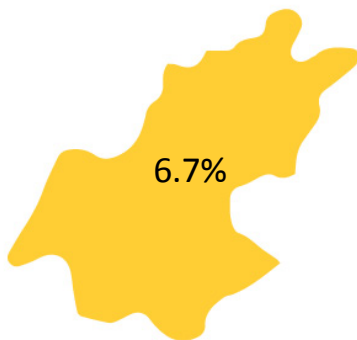

The **Lightstone Provincial Index** tracks annual inflation of the 4 major provinces in South Africa.

### Annual Inflation: Major Provinces

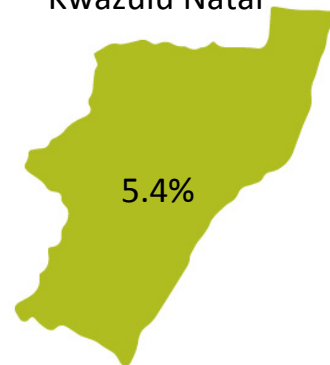

## Latest/Current Provincial Inflation Status

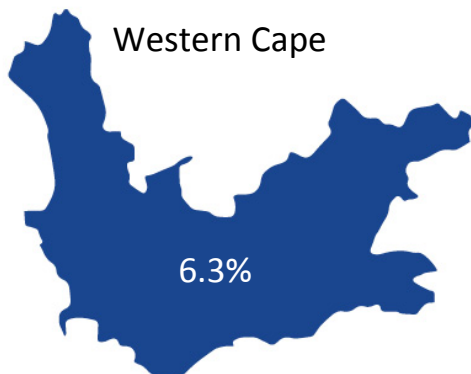

### Gauteng

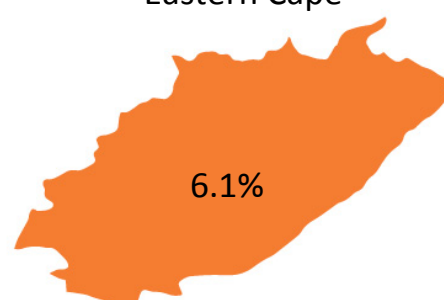

### Kwazulu Natal

### Western Cape

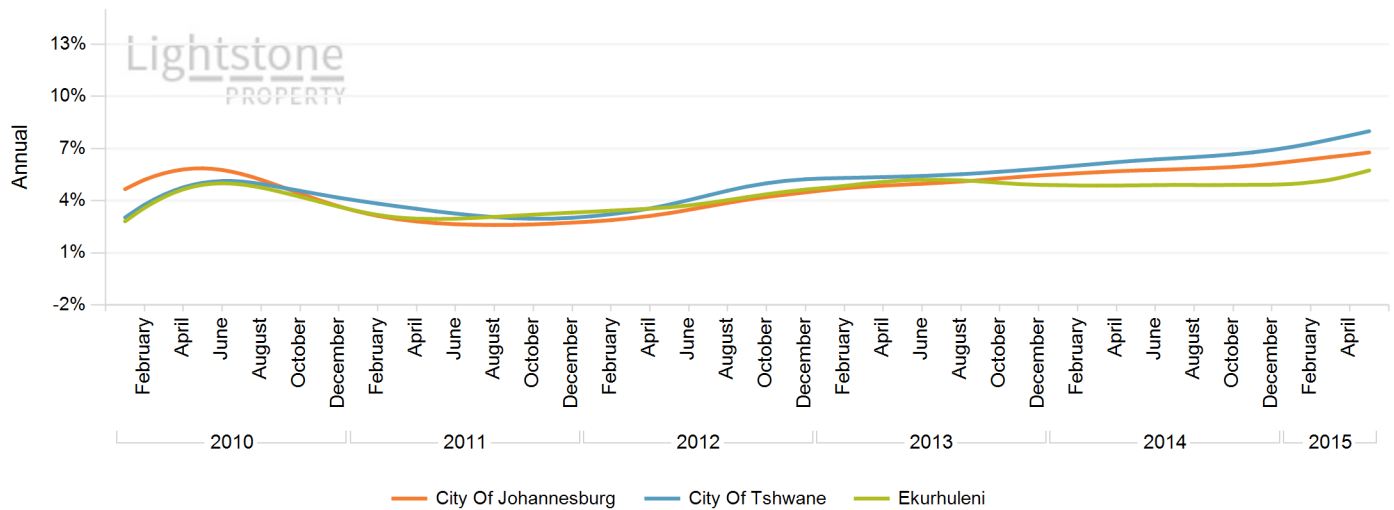

### Eastern Cape

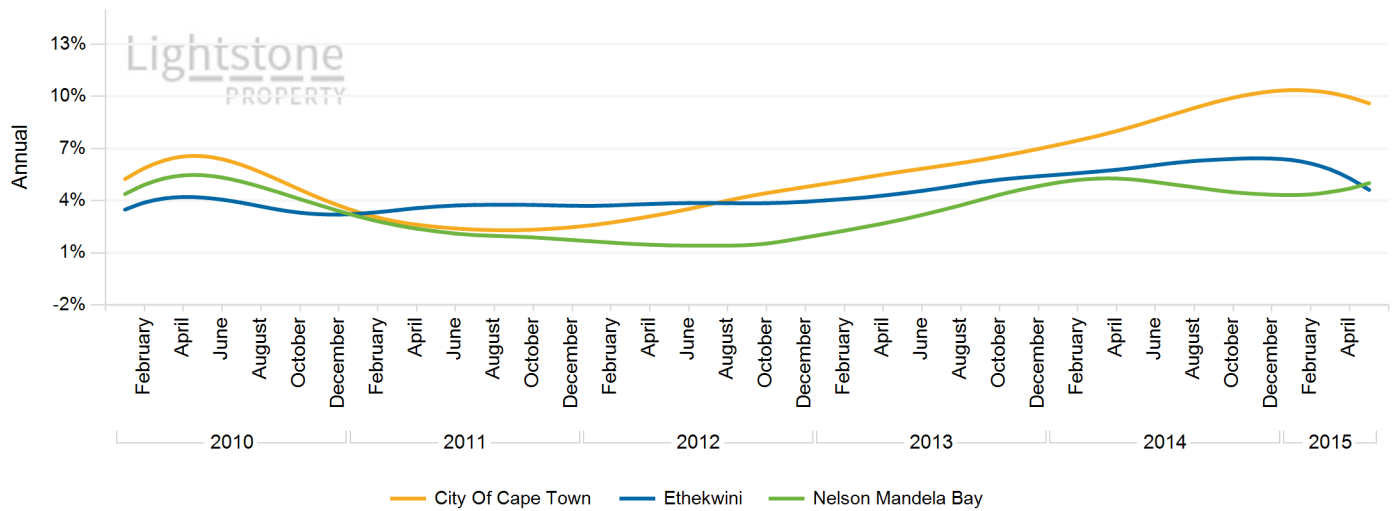

## Municipal Inflation

The Lightstone Municipal Index tracks annual inflation at a municipal level, with coastal and inland based municipalities reviewed independently.

### Annual Inflation: Inland Municipalities

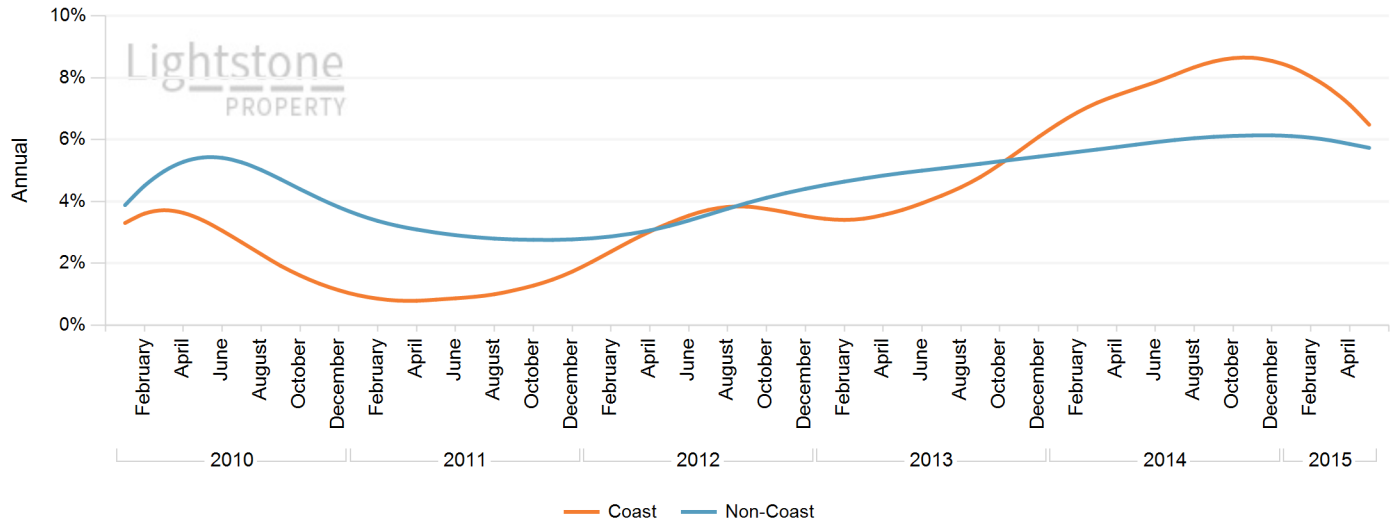

### Annual Inflation: Coastal Municipalities

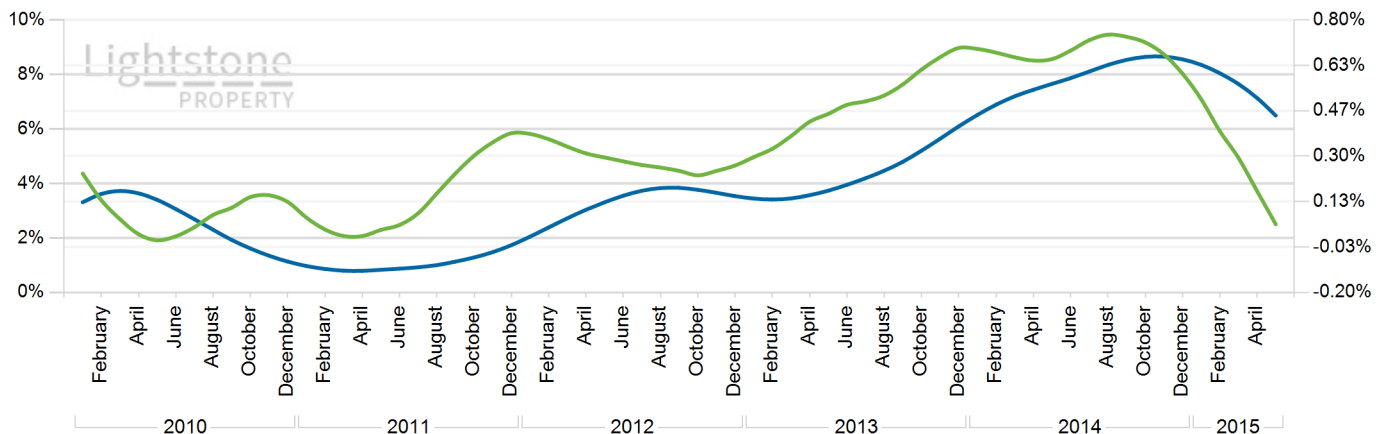

## Property Inflation: Coast vs Non-Coast

The Lightstone Coast vs Non-Coast Index compares property located within enumerator areas 500m of the coastline to those located further inland.

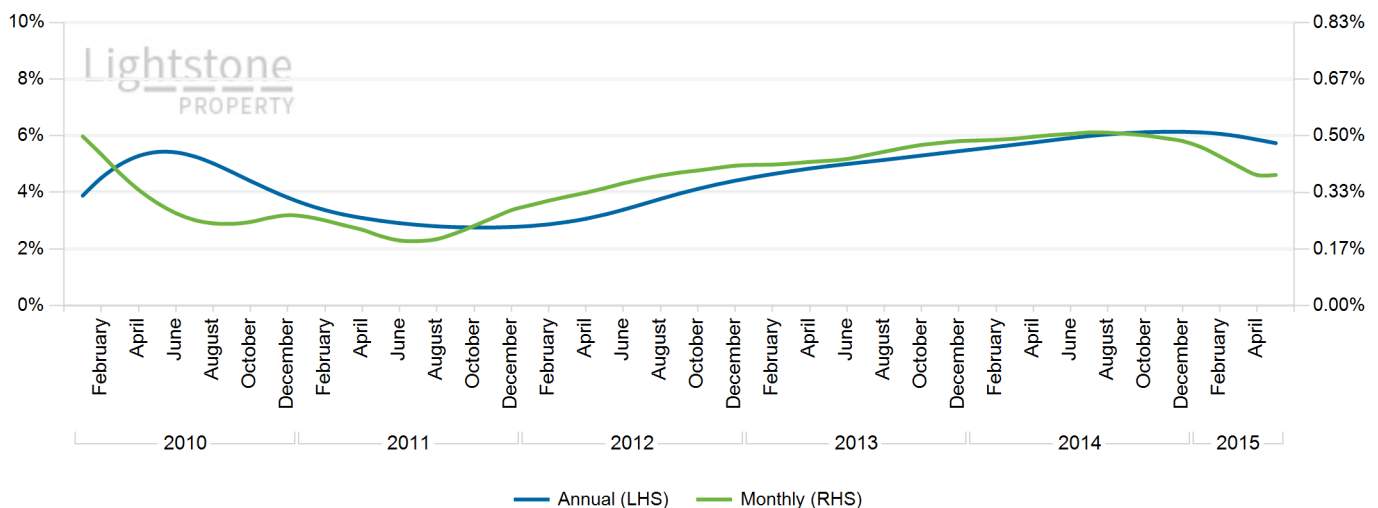

### Annual Inflation: Coast vs Non-Coast

### Coast: Annual vs Monthly Inflation

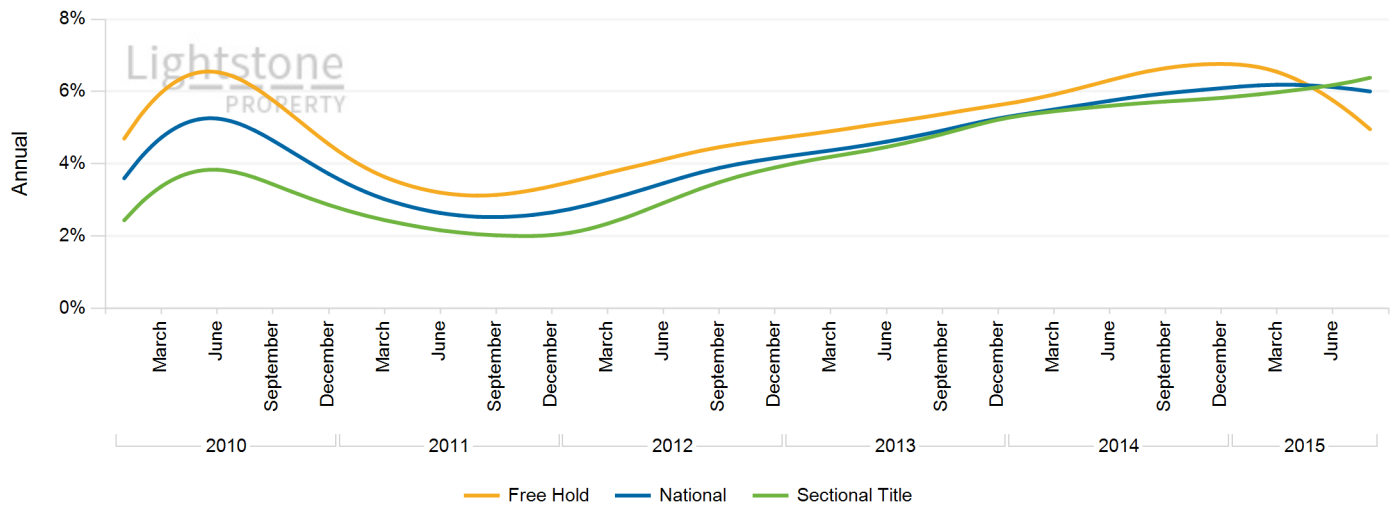

### Non-Coast: Annual vs Monthly Inflation

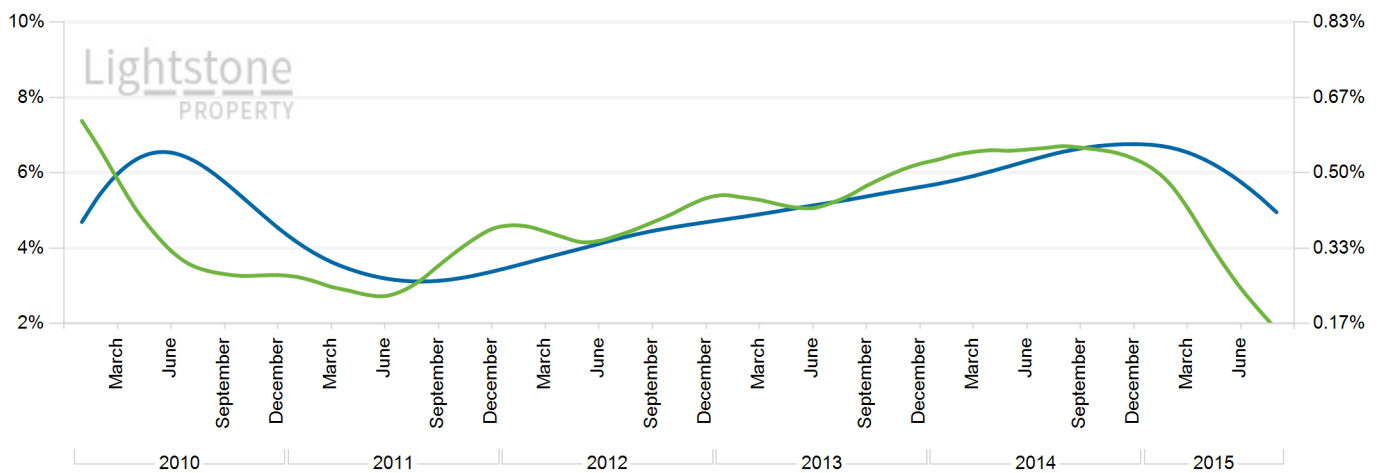

## Property Inflation: Free Hold vs Sectional

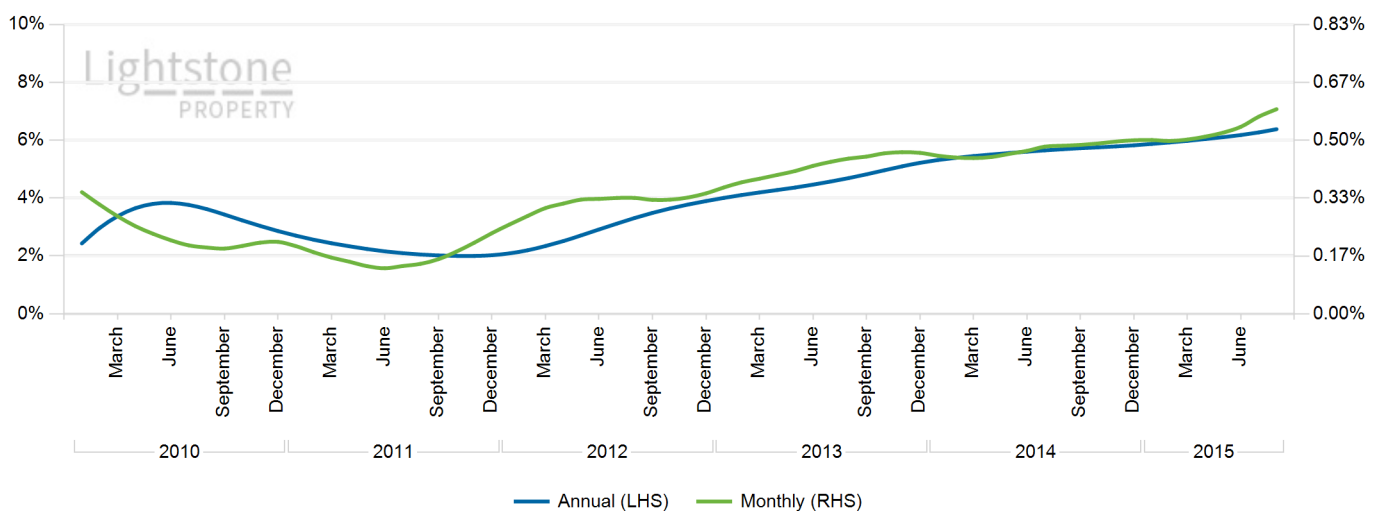

Annual Inflation: Free Hold vs Sectional Title Properties

Freehold Property: Annual vs Monthly Inflation

Sectional Title: Annual vs Monthly Inflation

## Property Inflation: Value Bands

The Lightstone Area Value Bands Index reviews inflationary rates for property based on the following values.

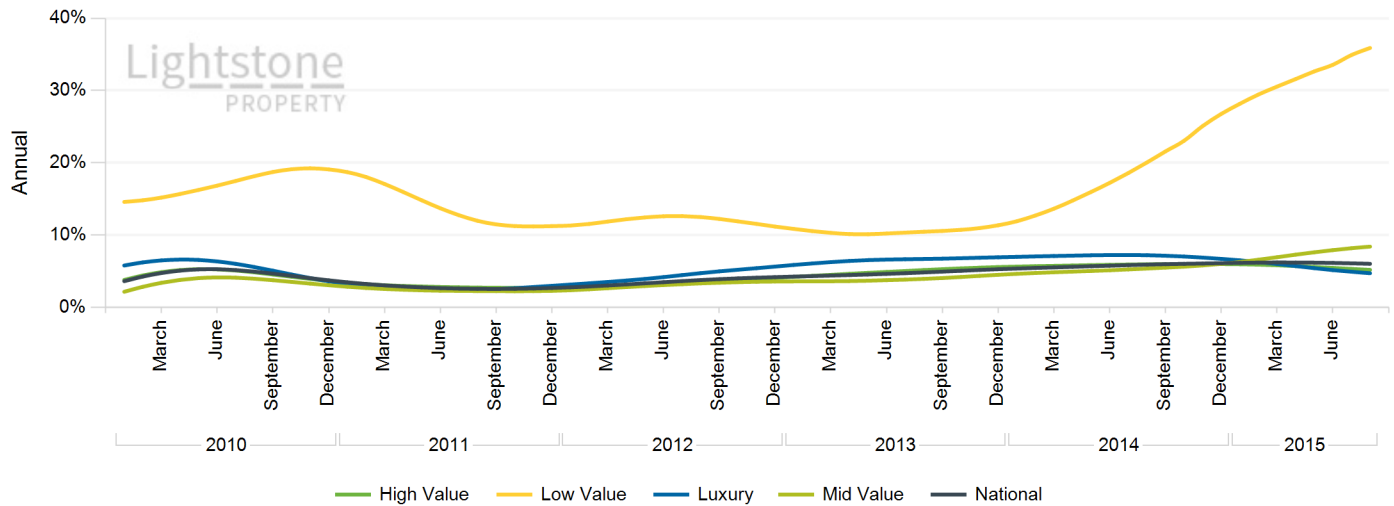

Luxury: > R1.5mil

High Value: R700k to R1.5mil

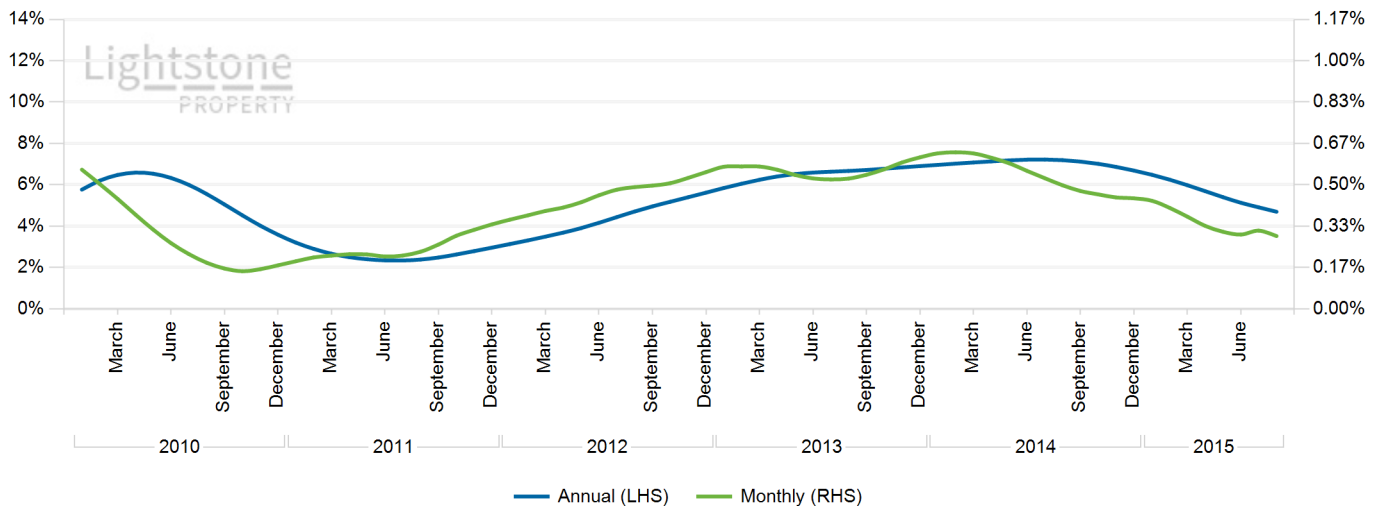

Mid Value: R250k to R700k

Low Value: <R250k

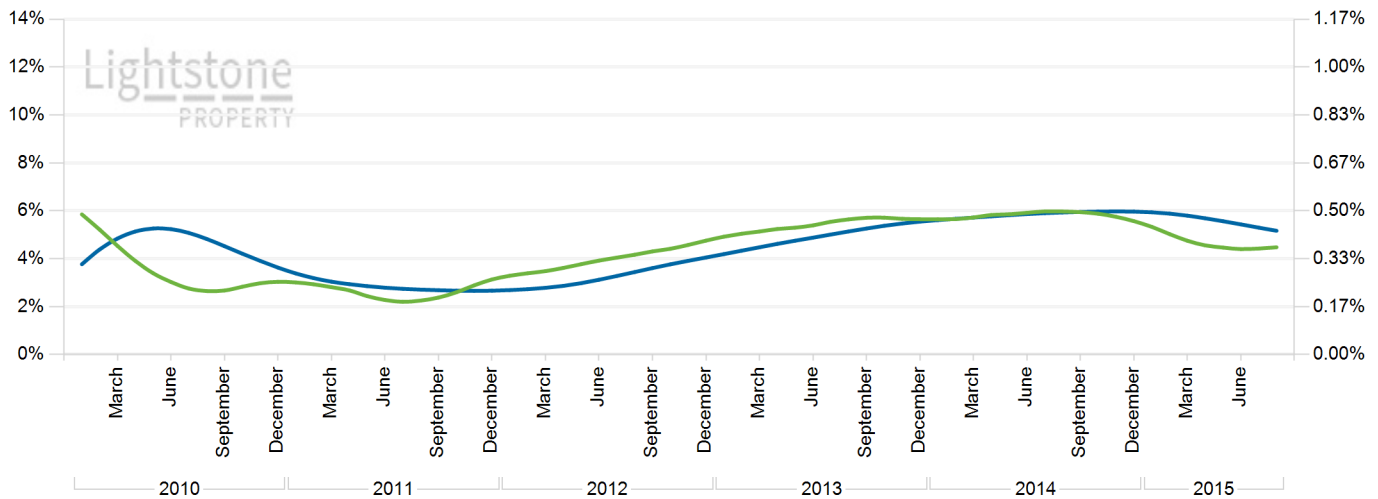

### Annual Inflation: Area Value Bands

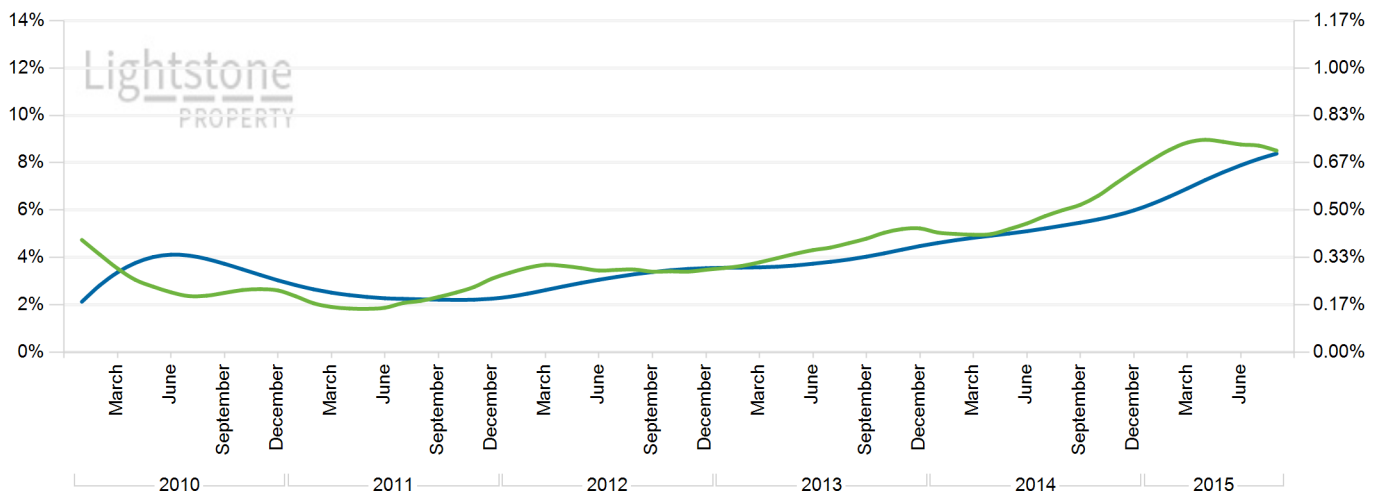

### Annual vs Monthly Inflation: Luxury Property

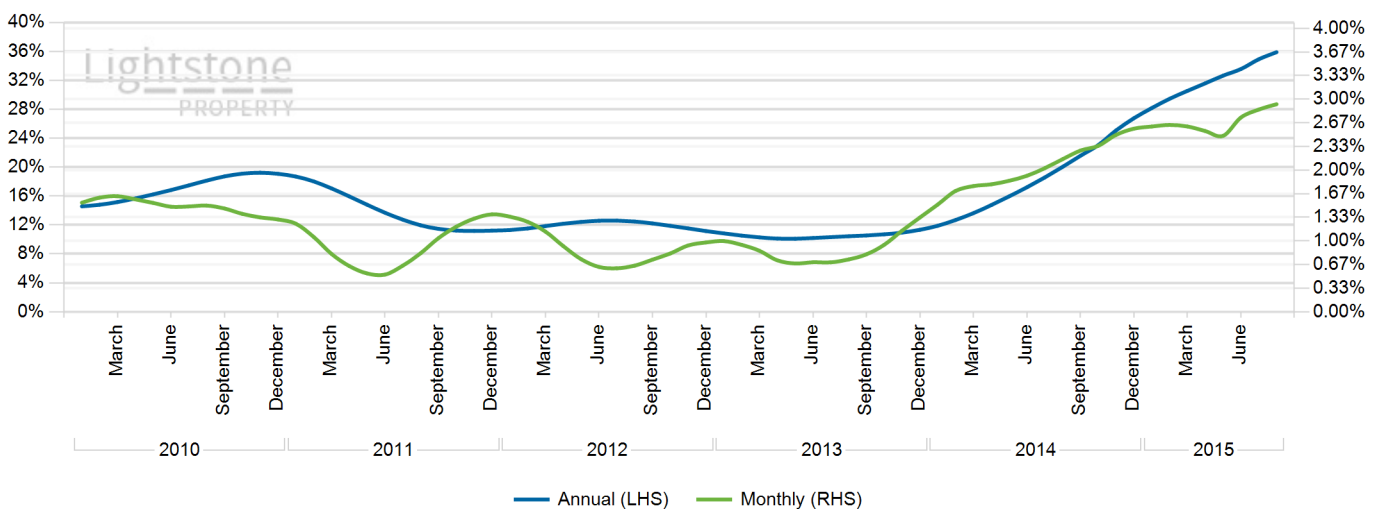

## Annual vs Monthly Inflation: High Value Property

## Annual vs Monthly Inflation: Mid Value Property

## Annual vs Monthly Inflation: Low Value Property

## Inflation Table

The **Annual Inflation Table** (below) provides a long term view of annual rates of inflation for various geographical areas and property types.

Please note that historic inflation rates can change as transactions occur that imply price inflation for those periods.

		2010	2011	2012	2013	2014	2015			
							Q1	Q2	Jul	Aug

## Shining A Light On Our Approach...

### Methodology:

Lightstone applies the repeat sales methodology when reviewing and reporting on property data. In contrast to 'average house price' indices, repeat sales indices provide a measure of the actual price inflation of houses that have transacted twice within a particular period of time. The main benefit of this is that it is less influenced by the mix of transacting properties. The repeat sales methodology is recognised as the premier methodology for indexing house prices and is used by many international residential property price indexers including the Office of Federal Housing Enterprise Oversight (OFHEO) in the United States.

### Data:

All property transactions in South Africa are registered in the Deeds Office and each record contains the legal details of both the property and the transaction. For the purposes of the Repeat Sales Index for residential properties, the following transactions have been excluded: farms; any transactions which may be of a development, commercial or community services nature; new developments; sales made in execution of a judgement; non-arms-length transactions; transactions where the inflation is extremely different to the norm of the statistical distribution of inflation rates; and township transactions.

### Caution:

Lightstone presents both annual and monthly inflation rates. Monthly inflation emphasises recent market performance (i.e. month on month) and is more volatile than annual inflation trends. Conclusions about the future trend of annual inflation, based on monthly inflationary rates, must be made with caution.

### Disclaimer:

The Lightstone Repeat Sales Index system applies advanced statistical methods to a comprehensive property database - compiled from the Deeds Office, the Surveyor General and other sources - to generate repeat sales inflation data for individual residential properties. Despite the statistical and actuarial rigour applied, Lightstone cannot guarantee the accuracy and reliability of the data. Furthermore, the index is a statistical tool and does not amount to advice and may not be applicable in some cases. Lightstone does not take responsibility for any losses incurred as a result of any person acting or omitting to act as a result of the publication of this index.
